Hillary Heaney and smaller picture of the late Dr Verna Yater

Hillary Heaney is a Spiritual Healer / Medium. Her gifts of Spirit have been with her since she was a small child. Over the last twenty five years she has been clearing herself and developing her extraordinary gifts so that she can be a clear channel for the Christ energies and healing.

In the mid nineteen nineties Hillary asked Spirit to send her a master teacher. Enter Dr Verna Yater, one of America's leading Trance Channels and Spiritual Healers whom I first met in Perth, Western Australia. From that point on her personal healing and her psychic gifts and healing abilities expanded considerably. She travelled to America to participate in Verna's Year Long Training Program but soon found herself in a role as Verna's assistant then became her friend and confidant. The Spirit Doctors first started working with her back then.

Hillary has brought the Spirit Doctors through since then and the evenings have proved to be a huge success. Many people have shared with me their wonderful experiences with the Spirit Doctors on that evening and are now looking forward to the future sessions.

Testimonials: I have attended many of Hilary Heaney's Spirit Doctor evenings and also those with Dr Verna Yater. I have found, that these evenings are just as powerful as they were with Dr Yater. I have skin cancer on my face and it was during a session of the Spirit Doctors with Hilary that I felt them working. It wasn't until I went to the Herbalist a few days later that she told me "You are a very lucky girl" because after testing for the cancer and the vibrations on the body, there had been a major change. *From Anne Paige Healing candles by Ear Candles Australia December 2008.*
