Says Rosemary:-

This Course is the beginning of a new stage in your development. Are you ready to take the next step?

You have a human body and a *Light Body*. So far you have learnt the tools for Abundance, relationships, releasing old patterns and energy work and much more. This was to clear the cells of your human body. This work was essential. Your body's cells needed to be cleared from blockages for how else could the Light enter? So after the cells are cleared, what comes next – the activation of the Light Body. There are 12 Levels of Activation of Light Body.

This activation can only take place when the axiotonal meridians are connected. This connection allows for the Light from the Light Body which is electrical in nature to flow into the cells of the human body, thereby assisting the ascension process. Your body is becoming enlightened, the magic is happening. While the body is waiting to be cleared, the high frequency of Light may cause headaches, tiredness, nausea and vomiting, joint aches and pains, pain in the lower back and hips, fevers and sweats as it encounters the blockages in the cells and chakras.

In the course you will learn what axiotonal lines are what the benefits are to you and how easily they can be connected, and how you can activate the levels of Light Body. . Then the magic happens!!!!
