

STEPPING STONES TO SELF MASTERY WORKSHOP

Sally A Gibb-Cumming

How Far will the stepping stones take you?

The workshop will cover important elements in creating your personal stepping stone pathways to the answers you seek.

You will explore the steps you take to reveal where you are, where you have come from and where you are going. It is all within you as you access the inner intuitive voice. You will see before you tangible and visual evidence of how powerful and insightful you are. Once you have chosen a personal question, moved through a meditation, your subconscious begins to reveal the truth.

This process is uniquely brilliant as you become the oracle of your inner wisdom.

Can you imagine that it is possible to channel through your hand a picture of your subconscious knowing? The process illuminates the stepping stones on which you can walk, your awareness guiding you on a sure footed path to your highest good.

Be empowered by positive guidance to implement a powerful change.

You will be guided deep within so you become the reader of your own steps through symbology, numerology, the Self Mastery board game and other spiritual tools that are innovative, inspiring and give perfect solutions to the questions you want answered. You will discover how powerful you are as you step through the void into unlimited realms. Here you will harness the field of vast potential, understanding and revelation.

The Stepping Stone process is a wacky and wonderful way to receive the guidance that expands consciousness.

Venue: SoultoSoul Healing & Teaching, Suite 4, 6-7 Gurrigal Street, Mosman.
