

HEART OF THE EARTH

NURTURING THE SACRED FEMININE

WRITTEN & ILLUSTRATED BY
ROSLYNE SOPHIA BREILLAT

A woman's love arises from the heart of the Earth. This is her womb place, her true place of belonging, the place of her inherent wildness, her loving tenderness, her gentle wisdom, her female strength, the place where she comes home. This place, her sacred ground, is where she openly, intimately and deeply nurtures the heart of the sacred feminine.

The words that flow through Sophia in this book contain great truth about the forgotten indescribable sacredness of the feminine. It speaks direct to my heart. This book is a must read for every woman and every man. Read it, meditate on it, and live it, the world will be a better place. Avinash Do, Spiritual Teacher... Australia...

Sophia's message is beautifully illustrated and one I support: Let your power arise from your womb wisdom, reconnect with Earth Mother. Susun Weed... Author, Wise Woman Herbal Series... U.S.A....
